**Technical POC:**

**Synopsis:** This is a Sources Sought Announcement. This is not a request for proposal, quotation or bid. It is only a planning document.

The US Army Corps of Engineers desires to identify 8(a), Hubzone certified, service disabled veteran owned small business contractors, and other small business contractors capable of providing the following services: a wide range of investigations including remedial/response and removals for Hazardous and Toxic contaminated waste sites. Although not the primary focus of this potential contract, work may include ancillary Ordnance and/or Radioactive materials and subsequently the remediation of munitions response sites and radiological sites.

The Baltimore District is seeking qualified contractors who have experience with the above referenced activities. Interested firms shall submit a narrative demonstrating their experience in these areas. The narrative shall not exceed 6 pages (11 font minimum). Tables, charts, graphs, etc. will count towards the 6 page count total (smaller font is allowed for these items, but the text must be legible). This includes the possession of an adequate accounting system. All data received in response to this Sources Sought Notice marked or designated as corporate or proprietary information will be fully protected from release outside the government.

No reimbursement will be made for any costs associated with providing information in response to this announcement or any follow-up information requests. No telephone calls will be accepted requesting a bid package or solicitation. There is no bid package or solicitation. In order to protect the procurement integrity of any future procurement, if any, that may arise from this announcement, information regarding the technical point of contact will not be given and no appointments for presentations will be made.
